TASTING NOTES

NOSE

It is clear from the first sniff: this whisky is in the intense league. The flavours are strong and unmistakable. The aroma is sweet and immediately reminiscent of fresh, buttery popcorn. The corn flavour is dominant, accompanied by a hint of vanilla extract, which gives the whole thing a soft note. Light citrus accents bring a certain freshness into play, which prevents the fragrance from being too heavy. But beware: it is this sticky-sweet note that immediately grabs the senses - there is no room for restraint here. The hint of lime is particularly exciting, providing a surprising freshness and skilfully breaking up the sweet profile.

PALATE

You almost feel like you're biting straight into a ripe corn cob. The sweet notes of brown sugar and caramelised popcorn really jump out at you, intense, almost overwhelming. Vanilla underpins the whole thing with a creamy undertone. What makes this whisky special is its oily consistency, which literally lies on the tongue - extremely warming and soothing. Slightly salty and dusty flavours are mixed in, giving the whole an interesting, spicy depth.

FINISH

The finish of this corn whisky is medium-long, but spicy and distinctive. The oak, which has been at work for ten years, is very present here. The whisky does not fade away quietly, but leaves a lasting impression with plenty of flavour.

THOUGHTS

MARCEL

A whisky that immediately impresses with its full corn power and delivers pure drinking pleasure – no frills here, just straightforward enjoyment. Sure, it lacks a bit of complexity, but that's exactly what makes it so honest and approachable. For anyone who likes their whisky robust and intense, Whesskey is a real winner!

SASCHA

Structurally solid, this corn whisky scores particularly with its clear corn dominance and balanced spiciness on the finish. The 10 years of barrel aging show their effect; although it lacks a bit of depth, it remains harmonious and intense. A successful example of a powerful German corn whisky with a distinct profile.
